

REQUEST FOR PASSWORD

The protection of your account information has always been very important to us, and so has the opportunity to provide you with excellent customer service.

In accordance with the FCC Customer Proprietary Network Information rules, beginning December 1, 2007, only the "financially responsible parties" and "authorized per contract individuals" will be able to receive any account information and/or make changes to your Cellcom account. To verify that the person requesting the information or change is the "financially responsible party" or individual "authorized per contract" we will require the following information: name on the account, billing address and last four digits of the Social Security Number.

For added protection we strongly encourage you to include a password on your account. Only the individual "financially responsible" as shown on your account may request a password to be added to, changed or removed from the account. You will be asked to provide the password each time you request information or to make a change to your account in person, over the phone or by email. If you provide the password, no other account verification is required. In order to change or remove a password, you will need to come in to any Cellcom location and provide a government picture ID to verify that you are the "financially responsible party."

A password can be any combination of alpha-numeric characters and must be between 8 and 20 characters in length. The password is not case sensitive. Please enter your password in the box below.

PASSWORD

I certify that I am financially responsible for this account.
